---

Your **Partner of Choice** in Critical Care

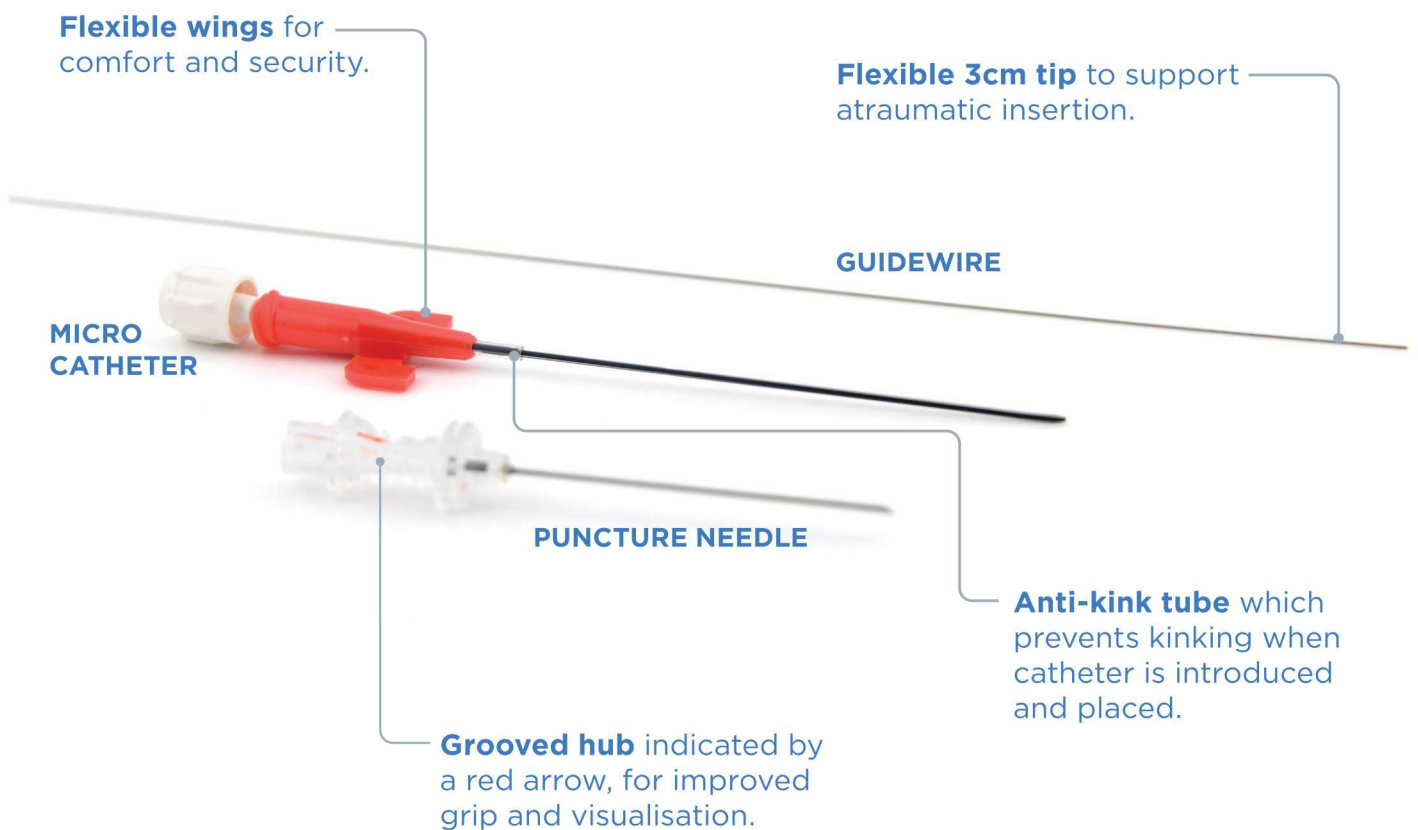

## Delivering **value** across Critical Care

**For more than 40 years**, Kimal has delivered high-quality vascular access solutions for Critical Care teams worldwide.

Putting clinicians and patients first, we provide reliable products that support better patient outcomes and lasting value for healthcare departments.

# Microseld® Radiopaque Arterial Seldinger Catheter

The Microseld arterial catheter is intended for Seldinger insertion via the radial, brachial, or femoral artery for continuous arterial blood pressure monitoring, arterial blood gas sampling, and blood specimen collection. The design supports controlled arterial access and catheter placement.

| Code     | Description                 | French Size | Length x Size | Material | Box Qty |
|----------|-----------------------------|-------------|---------------|----------|---------|
| 302 042A | Microseld Arterial Catheter | 2 Fr.       | 4cm x 0.7mm   | PTFE     | 20      |
