KIMAL
delivering healthcare innovation

KIMAL COMMITMENT

AWARD WINNING CUSTOMER SERVICE

The customer is our number one priority and we are committed to consistently delivering high standards of customer care globally. It is this philosophy which has led us to achieve the European Supply Chain Excellence Award for Customer Service in conjunction with an NHS Trust.

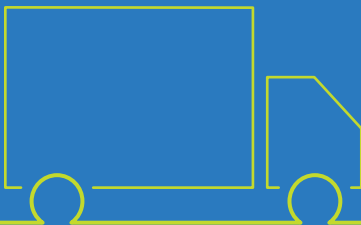

NO UNEXPECTED SURPRISES

We will work with you to deliver a customised procedure pack to your requirements. You will receive what you ask for and if anything changes, we will notify you first.

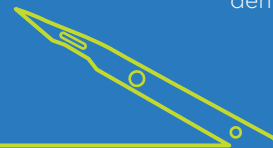

DELIVER ON TIME

KIMAL recognise the importance of delivering on time, every time, in full. Through our 50 years' experience we have developed core skills which have enabled us to work with our customers and actively manage the challenges of fluctuating demand through forecasted monthly usage.

HIGH QUALITY PRODUCTS TO MEET YOUR NEEDS

We work with our manufacturers to deliver quality products which will withstand the demands of the procedure.

SPECIALIST CLINICAL KNOWLEDGE

Our team of Clinical Specialists and a customer focussed sales team are dedicated to understanding the needs of clinicians and will support you in improving efficiencies in your department.

Our **commitment** to your **patient**

Your speciality is our priority and we believe in giving you choice.

With over 50 years experience of working in a specialism where expert knowledge and an eye for detail are critical, Kimal understand the individual requirements of a procedure.

Innovation has been at the heart of everything Kimal has achieved and this has been extended to our Pack+ Service.

Committed to supporting your individual requirements Kimal have a range of high quality procedure packs and drapes and gowns to support your procedure.

If your requirements are more specialised, Kimal can work with you to provide solutions to your exact requirements from our range of speciality procedure packs, drapes and gowns and speciality products.

PROCEDURE PACKS

1

SPECIALITY PROCEDURE PACKS

DRAPES + GOWNS

Kimal SurgiGuard drapes and gowns are available in a range of materials and configurations to suit your requirements.

2

SPECIALITY DRAPES

- + Developed alongside clinicians with patient safety in mind
- + Choice of EN13795 compliant materials
- + A dedicated Clinical Specialist will work with you to develop a customised draping solution for your procedure using specialist CAD design software.

PROCEDURE PRODUCTS

3

SPECIALITY PRODUCTS

Our **difference** is your **speciality**

WITH SURGI GUARD®

IT'S ALL ABOUT CHOICE

Kimal SurgiGuard® drapes have been developed alongside clinicians with patient safety in mind.

As one of the first manufacturers to introduce procedure packs as a valuable and time saving solution in 1992, procedural solutions and patient safety remain at the heart of everything we do.

Available in a range of configurations and materials, SurgiGuard acts as a defence against bacteria guarding your patient from bacterial migration whatever the procedure.

- Protect you and your patient
- Guard against bacterial migration
- EN13795 compliant materials
- Choice of materials in universal and speciality drapes
- Customised to your procedural requirements

GLOSSARY OF TERMS

BASE MATERIAL	Main body of the drape in contact with the patient.
CRITICAL AREA	Area around the operation site allowing for quick absorption of fluids.
WINDOWS/SIDE PANELS	Clear panels on the edge of the drape to enable operator to see control panel.
FENESTRATIONS/APERTURE	The opening on the drape to gain access to the wound site.

MATERIAL SPECIFICATIONS

SMS	A hydrophobic, non-woven material comprised of three bonded layers of polypropylene; spunbond -meltblown- spunbond.
2PLY LAMINATE	A two layer material comprised of an absorbent viscose top layer and a PE base layer.
3PLY LAMINATE	A three layer material comprised of an absorbent viscose top layer, a PE middle layer and patient comfort layer on the base.
SPUNLACE	A hydrophobic, non-woven material with a cotton feel comprising of cotton and a synthetic fibre, usually polyester.
PE	Polyethylene; a plastic material either clear or blue in colour.
SURGIGUARD BLUE	High absorbent material with a lock away core, which then dries.
AIRLAID	Highly absorbent material, used for reinforcing critical areas.
INCISE	Hypoallergenic polyurethane adhesive film surrounding or covering a fenestration to prevent microbial migration.
ADHESIVE	Hypoallergenic adhesive tape is a securement feature for attaching drapes to tables or patients.
